OBINNA EZEKA

Software Engineer

SUMMARY

Software engineer with a passion for building scalable, high quality applications. Experienced in designing and deploying full-stack projects, collaborating in team environments,and solving complex problems through clean, maintainable code. Strong interest in distributed systems, developer productivity, and security.

WORK EXPERIENCE

Software Engineer at 100devs, Bay Area, CA

January 2023 — Present

- Worked closely with a team of developers to design and deliver modern, responsive web applications following best practices.
- Developed full-stack web applications with clean, semantic code and scalable architecture.
- Utilized Agile methodologies (SCRUM) to manage project timelines, prioritize tasks, and ensure efficient delivery.

Recent Projects:

Hip Coffee Co (Fullstack Web App) – Cashier can take coffee orders from customers with their names. Baristas can login to the app and see orders that have been made, mark them as complete. Orders that have been completed will note which barista completed the order.

Drafting For Dummies (Fullstack Web App) – Users can input their league teams and generate their desired draft lottery system that calculates the weighted odds for draft picks, with a responsive interface. Then results are shared and displayed to the user.

Other Projects: Small Lakes Casino Virtual Slot Machine, Los Angeles StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more

Freelancing | Gilroy, CA

July 2023 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy. Some clients included:

Clients - The BAM Podcast LLC

Devinegrind Coffee | San Jose, CA

January 2015 — November 2017

Designed and developed a responsive website to showcase menus, promotions, and store details improving the shop's online presence. Implemented modern web practices, maintained site content, and collaborated with owners to align digital solutions with business needs, while also contributing to daily shop operations.
